

Md Imran Hasan Ovi

React Developer

Email : imran.h.ovi.95@gmail.com

Phone : +88 01851442405

Chittagong, Bangladesh

[LinkedIn](#) | [Facebook](#) | [Github](#)

Objective :

Passionate React Developer crafting exceptional user experiences through innovative web applications. With a keen eye for detail and a flair for design, I bring ideas to life with seamless and captivating digital solutions. Ready to contribute expertise and drive impactful projects in the dynamic world of React development. Let's embark on an exciting journey together.

Skills and Technologies :

Experties : HTML | CSS | SCSS | Bootstrap | Tailwind | React | ES6 | Context API | Axios

Comfortable : JavaScript | ExpressJS | REST APIs | JWT | MongoDB | AOS | React Chat

Familiar : NodeJS | NextJS | React Native | Redux | Material UI | Python | Stripe | Git

Tools : VS Code | Github | Postman | Chrome Devtool | Figma | Netlify | Heroku | Vercel

Projects :

1. Legends Toy Universe MERN Stack Project [Live Link](#) | [Github Code](#) ([Client](#) | [Server](#))

Features :

- Authentication implemented. User must be logged in to add, delete, update toy details.
- User could create, read, update, delete operation to his own toy. User must be logged in to do these.
- Private routing and sorting method. User can sort his shop toy in ascending or descending by price.

Technologies : React-Bootstrap | React-Router | React | Axios | ExpressJS | MongoDB | Firebase | Vercel

2. Foodian MERN Stack Project [Live Link](#) | [Github Code](#) ([Client](#) | [Server](#))

Features :

- Authentication implemented. User must be logged in to view chef & recipes details.
- Data limitation and pdf generator implemented. User can see all chef details or limited chef details.
- Private route and dynamic route. User must be logged in to see recipe details and it is a private route.

Technologies : React | React-Bootstrap | React-Router | React-PDF | ExpressJS | Firebase | Vercel

3. Higher Hires React Project [Live Link](#) | [Github Code](#) ([Client](#))

Features :

- Data limitation implemented. User can see all job post or limited job post.
- Dynamic statistic chart and route added. Job details page is a dynamic route.
- Sorting Method implemented. User can sort his applied jobs by onsite or remote type.

Technologies : React | React-Bootstrap | React-icons | React-Router | Recharts | Netlify

Education :

Diploma In Computer Technology	Chittagong Polytechnic Institute	2019 - Present
--------------------------------	----------------------------------	----------------

Courses :

• Complete Web Development	Programming Hero	January, 2023 – Present
